Beecroft, Sydney

## PROFESSIONAL SUMMARY

Aspirations of becoming a designer from a young age, with a passion for art and construction, and later, an extended interest in the built form, primarily the connection of nature and the built environment and how they can be moulded in unison to complement an ever-growing society. Proficient in CAD design as well as model making, with a strong background in drawing and sketching. I am excited by the prospect of enhancing my understanding of the field of design and architecture through hard work and creativity, driven by a desire to leave a positive impact on the world. Open-minded and increasingly focused on a desire to learn, creating a drive to work with others and a commitment to achieve desired goals.

## SKILLS

### Modelling

Archicad

Revit

Rhino

Autocad

Sketchup

Grasshopper

Solidworks

Design Builder

### Adobe

Indesign

Photoshop

Illustrator

### Rendering

Enscape

Lumion

Vray

### Other

Hand Models

3D Printing

Laser Cutting

Carpentry

## EDUCATION

### M. Architecture

USYD (2024-2026)

### B. Architecture and Environments

USYD (2020-2022)

### B. Design in Product Design

UTS (2019)

### Higher School Certificate

St Aloysius College (2017)

## WORK EXPERIENCE

2024 - Present

### Gelder Group Architects

Architectural Designer

I have had both team and solo experience on delivering small to large scale projects. I have worked on my own Residential and Industrial projects from Schematic to final Construction and every step between. I carry strong connections with both the builders and contractors of whom I work with.

2021 - 2023

### Nettletontribe Architects

Office Junior, Student of Architecture, Graduate Architect

During my 3 years at Nettletontribe, I had the opportunity to work across a range of sectors with a focus on Industrial, residential and commercial projects. I also was able to work in both large team settings and individually on projects from early phase feasibility through to construction documentation.

2018 - 2022

### Bunnings Warehouse

Builders Department Employee

I Operated in both the Tool Shop and Timber Yard offering assistance and expertise on a wide range of products for customers, from one stop DIYer's to experienced tradesman. A fortunate experience before starting a career in Architecture.

## VOLUNTEER WORK

2018 - 2018

### The Cardoner Project

Volunteer English Teacher

Myself and a small group of friends travelled to Nepal to live, teach, and serve the communities in the South of the Country. Operating as an English teacher and teacher's aide in the Sindulhi province of Ratamata. I also traveled to North East Sri Lanka to operate as a High School Teacher in Trincomalee. Visiting also the South of Thailand to assist in running a Summer English School in Surat Thani.
